Children and adults as well love crafting

Wooden spatulas and prisms

surface: natural [without surface treatment] / colored [water-based paint]

material: beech

Great fun for kids – kids are sometimes hard to keep busy. By creating they learn skills in working with tools, in addition they can make an original gift that will please your loved ones.

What can be produced – a wide selection of shapes and sizes offer an abundance of possibilities. Engage your creativity. Just a little glue, paint and a good idea are enough to create stands, boxes, decorations, toys or even a bed for a cat.
